

## What is an IEP?

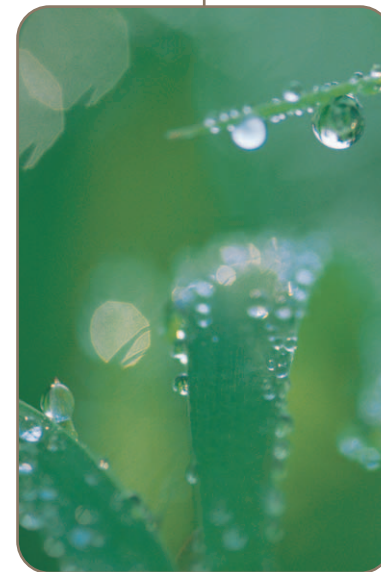

Indoor Environmental Professionals are individuals who have completed a rigorous screening process to earn the designation as an IEP. ENPRO developed the Alliance and its IEP program to service the needs of our clients nationwide.

IEP's are responsible for performing the fieldwork for indoor air quality and mold-related investigations. ENPRO conducts several different types of IAQ investigations which include:

- Visual Inspections
- MoldChek™
- Full Fungal Investigation
- Post-Remediation Verification
- Commercial IAQ Investigations
- Mold & Moisture Prevention Plans
- Survey for Moisture Intrusion & Visible Suspect Mold for Commercial Properties
